Market Analysis and Forecasting May 1/22 Langley - Walnut Grove

Next Months Market Forecast

Forecast: North Langley has an average Listing supply; 120 homes are for sale and with the strong **30 %SOLD** monthly rate gives us a ~3 months of inventory. 15% of the active listings have reduced their price by \$150,672 on average and \$65,950 on median in the last month.

The Fraser Valley's Detached Home Market has now dropped for the 2nd month in a row. The Average Home Price decreased (\$43,918) which is a big change from the \$2,921 drop that we saw in March. This adjustment is partially caused by the erosion of consumer confidence with the \$2/liter gas prices, interest rates, and economic woes. This is the 4th lowest monthly price decrease we have seen on record. We are now forecasting that the majority of the Fraser Valley Market continues to be in a Buyer's Market in the next coming months.

Currently, the Condo Market is still Stable with an Average Price Increase of \$1,617. Meanwhile, Townhouse Markets have switched to a Buyer's Market with an (\$8,069) average price decrease. We analyze and provide 97 individual City's Home Price Indexes to supply you with the MOST ACCURATE Market Trends every Saturday. Please contact us for your own Market Value Update with an in-depth Analysis and Forecast in your Local Market Area and more specifically - Your Neighborhood.

Analytical Methods: The North Langley represents many diverse markets that makes the average or median monthly homes sales statistics have very little value towards understanding the market changes. Currently we have split the market into two parts with the **North Langley HPIp Top 50%** representing the higher end sales and the **North Langley HPIp Lower 50%** representing the lower priced homes sales. Each HPI is determined by adjusting all of the paired monthly sales to produce one the most accurate HPI indexes at this time.

Note: For a more accurate price change for your home request a Comparative Market Analysis.

May 1/22 West Surrey

Next Months Market Forecast

Forecast: West Surrey has average Listing supply; 456 homes are for sale and with the **13 %SOLD** monthly rate gives us a ~8 months of inventory. 9% of the active listings have reduced their price by \$89,290 on average or \$68,100 median in the last month. We project West Surrey to be a Seller market.

The Fraser Valley's Detached Home Market has now dropped for the 2nd month in a row. The Average Home Price decreased (\$43,918) which is a big change from the \$2,921 drop that we saw in March. This adjustment is partially caused by the erosion of consumer confidence with the \$2/liter gas prices, interest rates, and economic woes. This is the 4th lowest monthly price decrease we have seen on record. We are now forecasting that the majority of the Fraser Valley Market continues to be in a Buyer's Market in the next coming months.

Currently, the Condo Market is still Stable with an Average Price Increase of \$1,617. Meanwhile, Townhouse Markets have switched to a Buyer's Market with an (\$8,069) average price decrease. We analyze and provide 97 individual City's Home Price Indexes to supply you with the MOST ACCURATE Market Trends every Saturday. Please contact us for your own Market Value Update with an in-depth Analysis and Forecast in your Local Market Area and more specifically - Your Neighborhood.

Analytical Methods: The Surrey West represents many diverse markets that makes the average or median monthly homes sales statistics have very little value towards understanding the market changes. Currently we have split the market into two parts with the **Surrey West HPI Top 50%** representing the higher end sales and the **Surrey West HPI Lower 50%** representing the lower priced homes sales. Each HPI is determined by adjusting all of the paired monthly sales to produce one the most accurate HPI indexes at this time. Note: For a more accurate price change for your home request a Comparative Market Analysis. Data is from : FVREB, REBGV, CADREB Real Estate Board and they assume no responsibility for its accuracy. Forecast: Current month's listing inventory is 10% less than same month last yr.

The Fraser Valley's Detached Home Market has now dropped for the 2nd month in a row. The Average Home Price decreased (\$43,918) which is a big change from the \$2,921 drop that we saw in March. This adjustment is partially caused by the erosion of consumer confidence with the \$2/liter gas prices, interest rates, and economic woes. This is the 4th lowest monthly price decrease we have seen on record. We are now forecasting that the majority of the Fraser Valley Market continues to be in a Buyer's Market in the next coming months.

Currently, the Condo Market is still Stable with an Average Price Increase of \$1,617. Meanwhile, Townhouse Markets have switched to a Buyer's Market with an (\$8,069) average price decrease. We analyze and provide 97 individual City's Home Price Indexes to supply you with the MOST ACCURATE Market Trends every Saturday. Please contact us for your own Market Value Update with an in-depth Analysis and Forecast in your Local Market Area and more specifically - Your Neighborhood.

Analytical Methods: West Surrey represents many diverse markets that makes the average or median monthly homes sales statistics have very little value towards understanding the market changes. Currently we have split the Condos and Townhouse markets into two parts with the **West Surrey HPIp Top 50%** representing the higher end sales and the **West Surrey HPIp Lower 50%** representing the lower priced homes sales. Each HPI is determined by adjusting all of the paired monthly sales to produce one the most accurate HPI indexes at this time. Note: For a more accurate price change for your home request a Comparative Market Analysis. Data is from: FVREB, REBGV, CADREB Real Estate Boards and they assume no responsibility for its accuracy.
